

GET A HEAD START ON YOUR PATH TO RECOVERY

Participating in a cardiac rehabilitation program is one of the best things you can do next. Rehab programs are medically supervised to help you improve your health and well-being and change your lifestyle habits through exercise training, education and counseling to reduce stress.

Cardiac rehab helps you:

Lose weight

Reduce the risk of having another heart attack

If you recently experienced a heart attack, ask your doctor for a **referral to a cardiac rehabilitation program** near you.
